DETAILED ACTION

Claim Rejections - 35 USC § 112

- 1. The following is a quotation of the second paragraph of 35 U.S.C. 112:
 - The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 2. Claims 3 and 7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is not clearly understood what is meant by "said rib is higher then the maximum thickness of individual said edge wrapping layers". The drawings show the rib below the edge wrapping layers. If the applicant meant that the rib extended away from the door panel a distance greater than the thickness of an individual edge wrapping layer, then clarification is required. The examiner has examined the claims based on the latter.

Claim Rejections - 35 USC § 102

- 3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:
 - A person shall be entitled to a patent unless -
 - (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 4. Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Blomeling et al. (US 2002/0180236 A1).
 - Blomeling et al. disclose a motor vehicle door having two panels (3,5). Door panel (3) is the wet side door panel while door panel (5) is the dry side door panel. Door panel (4) wraps around the edges of the wet side door panel (3). Figure 8 shows the

wet side door panel (3) having a rib (27). The dry side door panel (5) has a foam member (15) that contacts the rib (27) to form a seal. The rib (27) extends from the door panel (3) a greater distance than the thickness of the layer that wraps around the edge of the wet side door member (3).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Greg Blankenship whose telephone number is (703) 305-0223.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).

Any response to this action should be mailed to:

Assistant Commissioner for Patents

Washington, D.C. 20231

Or faxed to:

(703) 872-9306, (for formal communications intended for entry)

or:

(703) 746-3511, (for informal or draft communications, please clearly label "FOR DISCUSSION PURPOSES ONLY", "PROPOSED" or "DRAFT")
